From M. Cullen-Erickson

Dear Staff

The Occupational Therapists within our two service areas in the Qld Dept of Communities have reviewed the consultation paper information detailing the draft Advertising Guidelines, the draft Code of Conduct for Registered Health Professionals, and the draft Guidelines for Mandatory Notifications.

We wish to advise that we support the wording in these three documents and have no suggested changes

This information can be made public rather than be kept confidential

Kind regards

Margaret Cullen-Erickson,

On behalf of Discipline Seniors (Occupational Therapy); Qld Department of Communities; Disability Services and Community Care.
